

Donors To Hospital Drive May Divide Contributions In Six Payments, 2 Years

A number of friends of the Annie M. Warner Hospital who wish to donate to the fund being raised to pay for a much-needed addition have raised an important and relevant question that requires an immediate answer.

"We wish to donate to the fund but wish to spread our donations over a period of a year or two years. How can we do it?"

Those in charge of the campaign have anticipated such a question and have prepared an answer which is included in the brochure which was mailed last week to all householders in the area served by the hospital. Here it is.

If, for instance, you wish to donate \$60 you may divide your donation in six equal payments over a two-year period, making payments every month or every four months. These payments would be \$2.50 per month, or \$10 every four months for two years.

Suggested Donations
Similarly if you wish to donate \$120 you may pay \$5 each month or \$20 every four months for two years. Other donations would be as follows:

| Total | Every Month | Every 4 Mo. |
|----------------------|-------------|-------------|
| Donation For 2 Years | Two Years | Two Years |
| \$1,200 | \$50 | \$200 |
| \$600 | \$25 | \$100 |
| \$300 | \$12.50 | \$50 |
| \$150 | \$6.25 | \$25 |

A volunteer will call at all homes and places of business and explain how a donor can make a donation.

Those in charge of the drive are asking all donors to give as much as they possibly can as a first payment and then divide the balance in six equal payments. The hospital building committee needs money to start construction at the earliest possible moment.

Need First Unit Now
The first addition will cost approximately \$250,000. As soon as that amount is received the new addition will be constructed and 32 ward patients will be transferred from the original building. That building then will be made available for the urgently needed expansion of the X-ray and other services of the hospital which are now badly cramped and overcrowded.

Individuals, families, organizations (fraternal social and civic) and others are urged to be prepared to make their contributions as soon as possible or when the volunteer workers call at the homes or business places.

ROTARY CLUB IS TOLD OF NEEDS AT HOSPITAL

Dr. Frank H. Kramer, a member of the board of directors of the Warner Hospital, told of the operation of the institution and the need for funds for new construction at Monday evening's meeting of Rotary at the YWCA.

"We have been fortunate," Dr. Kramer said, "I remember when a student at the college suffered an injury and he had to wait all night until morning, to take the train to York, to be admitted to the hospital there. Now we have an outstanding hospital just a few minutes away from any of us."

"We have been fortunate in that there have been persons willing to give us that hospital. First Mr. Warner built it for us. Then, when we needed to expand the C. H. Musselman Foundation built the addition for us. Now the time has come again when our hospital must expand. There is a need for more rooms and enlarged facilities. This time we shall have to pay for it ourselves."

Need More Room

"When it became obvious that the needs of the area had outgrown the facilities of the hospital there was a question of what to do. There were those who recommended that we tear down the original hospital building and start anew. That did not seem to make sense. The old building is solid and good, as far as it goes. We looked it over and feel that it would be ideal for the expansion of the facilities of the hospital. They are cramped and crowded now, and while small miracles are performed every day in handling much more than the present quarters are designed to handle, you cannot go on that way forever. So the board decided to build first an addition to the Musselman annex. Then the patients in the old building can be moved to the new addition. And then the old building can be renovated for use of the X-ray rooms, dispensary, and all the other facilities."

MRS. YINGLING IS FIRST HEAD OF AUXILIARY

Mrs. Francis Yingling was elected the first president of the Auxiliary of the Gettysburg Fire Department at the second meeting of the new group Monday evening at the engine house.

Mrs. Julius Swope, temporary chairman, presided at the meeting until election of officers, then turned the gavel over to Mrs. Yingling.

Mrs. Douglas Knox was elected vice president; Mrs. Ralph Johnson, secretary; Mrs. Harold Dayhoff, treasurer, and Mrs. Frank Linn, chaplain.

Thirty-six women were present out of the approximately 70 members of the group. Fire Department President Richard Cole praised the organization "for the manner in which you have begun your activities. I congratulate the new officers, and I feel that the Gettysburg Fire Department Auxiliary will be a success because of the interest and enthusiasm shown thus far."

Asks Work Schedule

Raymond Menges, general chairman for the 92nd Battle Anniversary celebration, outlined plans for the firemen's carnival to be held in connection with the anniversary observance and asked the Auxiliary members to draw up a schedule for work at the carnival by next month. "We want everyone to work where they want to work at the carnival, and we hope that a schedule can be worked out by which we can determine who will be doing what at what time, and in that way if more are needed for some particular duty they can be provided. I appreciate the help many of you have given in past years and I know that I can thank you in advance for the work you will do this year."

The organization received a donation of \$5 from Mrs. Ellen Tipton Buehler whose father for many years was associated with the fire company. They raised \$825 in a collection involving the disposition of a cake provided by Mrs. Yingling, and thus started out "with money in the treasury." Membership cards will be printed and distributed.

The next meeting will be held Monday, June 6, at 7:30 p.m.

J. M. Sheads Is On Panel At Lancaster

J. M. Sheads, instructor in history at the Gettysburg High School, was a member of a panel Saturday that discussed recent references and general interest materials on Pennsylvania at a meeting of the South Central Chapter of the Pennsylvania Library Association in Lancaster.

The morning session was held in the Lancaster "Free Public Library with Lester Stoffel, president of the Pennsylvania Library Association, among the speakers. Carl W. Drenth, author and curator for the Pennsylvania Farm Museum at Landis Valley, was the luncheon speaker.

Mrs. Mary S. Wilson, librarian at the Adams County Free Library, also attended the meeting.

FIRE POLICE RE-ELECT CULP

Charles W. Culp Jr. was re-elected president of the Adams County Fire Police Association Monday evening at a meeting in Bendersville.

Culp, Gettysburg policeman and police chief for the county Civil Defense Organization, was one of the founders of the county fire police organization and has served as its president since its establishment about four years ago.

Roy Shanbrook, Bonneville, was named vice president; E. Glenn Raffenberger, Gettysburg, secretary; Melvin Herring, Cashtown, assistant secretary, and Robert Shriver, Gettysburg, treasurer. Details of the nationwide air raid drill to be held June 15 and 16 were outlined by President Culp who said that the fire police will participate in their usual duties in connection with such alerts.

Duane and Ivan Bretzman, Bendersville, showed movies of the Civil Defense tests held at Shippensburg and Mt. Holly Springs and the Bendersville Memorial Day parade last year.

The next meeting will be held in June at Brushtown.

TRUCKER IS FINED

Jesse Berry, Wyandotte, Mich., paid a fine of \$25 and costs to Justice of the Peace Charles A. Hemler Monday night for driving an overloaded truck. Berry was arrested by state police on Route 34, Cumberland Twp.

Senate Lauds Fruit Growers

HARRISBURG (AP) — The Senate is sending its congratulations to the Adams County Fruit Growers Assn. on the success of its apple blossom festival.

The chamber last night passed a resolution to that effect. One copy will go to Fremont Kuntz, association president, at Biglerville.

The resolution was introduced by Senator Donald P. McPherson of Gettysburg.

Fruit Growers Thank Times

The Fruit Growers Association of Adams County thanked The Gettysburg Times for its assistance and cooperation in the following communication:

"The Fruit Growers Association of Adams County wishes to express its sincere appreciation and thanks to The Gettysburg Times for its assistance and cooperation in making the 'Apple Blossom Tour and Week-End' a success."

"We hope to make this an annual event, and feel that with the splendid cooperation and assistance that we have received this year we can make next year's even better."

Revenue Agent Thanks Times

Thomas C. McSherry, Internal Revenue agent for this area, thanked The Gettysburg Times for its cooperation in the following letter:

"On behalf of the Internal Revenue Service I wish to thank you for your excellent cooperation in informing the public of matters relating to the filing of their income tax returns. It is appreciated, and I am sure the public likewise appreciate this public service."

HEAD OF HEALTH COUNCIL SPEAKS AT WELFARE MEET

Phillip E. Ryan, executive director of the National Council, used the Salk polio vaccine inoculations as an example of the need for strong local health units. "It is only in those places which have strong, well-organized local health departments can you be sure of quick, universal vaccination of all children," he said.

Mr. Ryan spoke at the annual regional meeting of the Pennsylvania Welfare Forum, held Monday at Gettysburg College and the American Legion Post Home. He also spoke at the evening banquet at the Legion home. The audience of approximately one hundred included Secretary of Welfare Harry Shapiro, Public Assistance Secretary Mrs. Ruth Hottel, and Secretary of Health Dr. Berwyn P. Mattison.

Apply Old Methods

Dr. Mattison, in introducing the speaker, said that he felt that the main gains in health during the next few years would come, not in new discoveries, but in the application of methods already known over a wider area.

Mr. Ryan listed three steps which would aid "the translation of knowledge into services for the people."

The first was the formation of local health units. The enabling legislation already exists in Pennsylvania, he said, and two counties, Bucks and Butler, have already set up county units, while Erie County will vote on a referendum on the matter in November. He also launched state-wide conferences which discuss the financing of such units.

He then spoke of the work of Dr. Jonas Salk and the voluntary (Continued On Page 11)

BIRTH ANNOUNCEMENTS

Mr. and Mrs. Richard Shoemaker, Emmitsburg, announce the birth of a son today at the Warner Hospital.

A son was also born at the hospital today to Mr. and Mrs. Herbert Miller, Westminster.

Mr. and Mrs. Marion Wilson, Westminster, became the parents of a daughter born today at the hospital.

Major and Mrs. Spurgeon A. Messner, Governor's Island, N.Y., announce the birth of a daughter, Marilyn Ann, on Friday. This is their third child and first daughter. Mrs. Messner is the former Mary Elizabeth McIlhenny of Gettysburg. The Messners, who have been at Governor's Island for more than two years, will go to the Canal Zone by July 1 when Maj. Messner will report for duty there with the Army. The Messners formerly resided at Hillcrest Place here.

A son was born Saturday to Mr. and Mrs. Luther Dick, Fairfield R. 7, in the Waynesboro Hospital.

Orders Delay With Salk Shots In County

Dr. C. G. Crist, Adams County medical director, received telegraphic orders from Dr. Berwyn P. Mattison, state health secretary, on Monday afternoon to postpone all clinics including make-ups for the administration of polio vaccine until removal of the suspension order by the Public Health Service.

Dr. Crist said the order has no immediate effect in this county because the make-up shots for absentees were given last week and the second inoculations are not due until the week of May 23.

"Besides," Dr. Crist added, "We do not have any supplies of the vaccine on hand here."

DRIVER IS HURT WHEN AUTO HITS DIESEL ON W. MD.

Fred Bly, 23, New Oxford R. 2, suffered bruises and abrasions of the body and a concussion of the brain Monday evening at 6:30 o'clock when his car ran into a Western Maryland railroad engine three miles west of New Oxford on the "old New Chester Road."

According to reports on the accident presented to J. Howard Gaines, local representative of the railroad, Bly ran into the rear of locomotive No. 174, a diesel engine, at the crossing on the "New Chester Rd." The locomotive, used as a shifter between Gettysburg and Hanover, was headed east toward Hanover at the time of the crash.

Guy Plank, Hanover, was engineer and Lee W. Eline, Hanover, the conductor.

Found Unconscious

The railroad men said Bly's 1947 car was demolished when it struck the engine, upset and then bumped the engine again. No estimates were given of damage, although Gaines said there was some "minor" damage to the diesel.

Bly was found unconscious in his car and Dr. John C. Menges, New Oxford, was summoned. He directed Bly's removal to the Warner Hospital here by the New Oxford Fire Department ambulance. Bly was riding alone.

The car was towed from the scene by the Hansford Body Shop.

355 Births In Area So Far This Year

Three hundred and fifty-five births have occurred in the Gettysburg district so far this year. Registrar of Vital Statistics Ralph C. Geiselman reported today.

Seventy-eight births were recorded in April, 41 males and 37 females, all born in Gettysburg. There were no births recorded during the month in the remainder of the district, Cumberland, Straban, Freedom and Highland Twp.

The number of births so far compares to 321 for the first four months of last year and 65 for the month of April, 1954.

There were 23 deaths in April, 13 male and eight female in Gettysburg and two male in Cumberland Twp., bringing the number of deaths so far this year to 74. Last year there were 71 deaths in the comparable four months, and 11 during April.

Local Interest In Articles In Post

Two articles which may be of interest locally are published in the May 14 issue of The Saturday Evening Post.

One article, "High School Kids Hit the Road," by Neil M. Clark, tells of the annual treks made by high school senior classes to Gettysburg, Washington and elsewhere. Gettysburg is mentioned in this piece.

The second article, "He Ain't Big, But He's All Fire," by William Barry Purling, tells of the amazing baseball career of Nelson "Nellie" Fox, of St. Thomas, Pa., second baseman with the Chicago White Sox.

U.S. Sabre Jets Down 2 Russian Migs Near China

By JIM BECKER

TOKYO (AP) — American Sabre Jets, jumped by Communist MIGs between North Korea and Red China, shot down two of the Russian-built jets and probably destroyed another this morning, the Air Force announced.

The dogfight started over international waters of the Yellow Sea, the Air Force said, when "eight Sabres were attacked by 12 to 16 Communist fighters." All the Sabres, on a patrol mission, returned later to their Korean bases.

The fight area was about 50 miles southwest of the mouth of the Yalu River, boundary between North Korea and Red China. Communist China has a large air base at Antung, and North Korea at Sinuiju, on opposite banks of the Yalu.

The Air Force gave no clue on the nationality of the MIGs, used by the air forces of North Korea, Communist China and Soviet Russia.

GIVES LIONS 3 REASONS FOLK SHOULD BOOST HOSPITAL FUND

Gettysburg Lions were given three reasons Monday evening for supporting the Warner Hospital building fund campaign in a talk on "The Hospital And I" by Prof. Francis Reinberger of the Lutheran Theological Seminary faculty. The meeting was held at the Shelter House with 92 members and guests in attendance.

At the same session the Lions voted \$10 to the Citizens' Youth Committee of Gettysburg and called for volunteers to help ready the Recreation Park diamond for the opening of the Little League baseball season on May 21.

Giving the Lions "three reasons why it is essential that I support the hospital drive," Prof. Reinberger declared: "First I should support the drive because it is my Christian duty, because it is a fine investment and because it is our hospital and we want to have the best possible hospital facilities here."

One In Eight Need It In '55

"Statistics tell us that one in every eight persons will need hospitalization each year so as your neighbor I have a real interest in seeing to it that when you go there you have the best facilities possible at your disposal," he pointed out the relationship between adequate hospital care and the process of healing.

"There is no barrier in our hospital of race, class or creed," he continued and said 1,731 days of hospital service were provided free last year to patients unable to pay "and that left the hospital more than \$14,000 even after state money partially offset the cost of that free care."

On the point of the hospital offering a "fine investment," the Rev. Mr. Reinberger, pointed out: "Every (Continued On Page 11)

200 PERSONS ATTEND CHURCH DINNER MONDAY

About 200 mothers, sons and daughters attended a covered dish supper at St. James Lutheran Church Monday evening at which a program was presented and prizes awarded.

Mrs. Nancy Eberle gave a toast to the mothers and Mrs. William G. Weaver toasted the children. Dolores Adams opened the program with an accordion solo. Recitations were given by Robert Weikert and Linda Sterner. Ricky Shade, who played the song flute, was accompanied at the piano by his mother, Mrs. Richard Shade.

Other selections included a vocal solo by Doris Hamme, accompanied by her mother, Mrs. Miriam Hamme; a vocal duet by Allan Hoke and his mother, Mrs. Swartz Hoke; readings by Mrs. John Crow, Mrs. Eugene Hartman, Mrs. Charles Kuhn and Mrs. A. A. Maust.

"The Sunbonnet Symphony Orchestra" played a number of selections and its members sang several songs. Included in the orchestra were: Mrs. Richard Lighter, Mrs. Nancy Eberle, Miss Molly Lighter, (Continued On Page 2)

Employees At Hospital Give \$324 To Fund

One of the first contributions made to the Warner Hospital drive for \$250,000 with which to construct an addition to the present institution was received from the employees of the hospital.

Walter B. Dillon, hospital administrator, announced today that the employees gave \$324.28 to the fund, one of the first groups to donate.

"The employees, of their own accord, donated to the fund. They had previously decided to make their donation as a group and this they did with a commendable amount," Mr. Dillon said.

"It is gratifying to see such loyalty and devotion to the hospital as is exemplified in this donation," he added.

chapters at ninety American colleges and universities are chosen for "leadership, scholarship and service" to their school. Miss Heim has also been elected chapter editor of the society's journal.

Among the activities for which Miss Heim was honored are membership in the all-university Leadership Training Committee and the Campus Chest Committee. She is also on the staff of the Campus Promotion Agency and is a member of the Liberal Arts College Student Council. She is concluding a year in Chimes, junior women's honor society, and recently won an alumni scholarship.

Miss Heim has other journalistic responsibilities including membership on the Liberal Arts magazine staff and the Inter-fraternity Council's newspaper staff. She is also news editor for her sorority, Alpha Chi Omega, and serves as secretary of Theta Sigma Phi, journalism's honorary professional fraternity, of which she is a member.

ASKS \$4,778 IN DAMAGE ACTION

Mildred I. Tate, Idaville, filed an action in trespass against Richard E. Tate, Gardners R. 1, on Monday in the prothonotary's office, asking \$4,778.20 damages as a result of an automobile accident of August 25, 1950.

The plaintiff claims that on that date, she was a passenger in a car driven by Mr. Tate, who was driving south toward York Springs, one mile south of Idaville. She states that he sideswiped an oncoming vehicle, then swerved and hit a bank, and the car rolled over, as a result of which she sustained a broken leg and other injuries.

She states that the defendant is responsible for the mishap because he drove at an unreasonable speed, and in a reckless manner. She asks damages of \$778.20 for medical and hospital expenses, \$3,000 for pain and suffering, and \$1,000 for permanent incapacity, as a result of the leg injury.

GUEST CONDUCTOR

Paul A. Harner, Hanover, director of instrumental music of the Littlestown and New Oxford High Schools, served as guest conductor for the three-day Perry County Band Festival held at the New Bloomfield High School last Thursday to Saturday. The festival had 125 musicians composing the band from the seven county high schools, New Bloomfield, Blain Union, Green Park Union, Greenwood Joint, Newport Union, Perry Joint and Susquehanna Joint.

CUMBERLAND'S REALESTATE TAX IS CUT 2 MILLS

Cumberland Twp. School directors have adopted a \$125,047 1955-56 budget that allows for a two-mill reduction in the real estate millage there. The tax rate will be cut from 27 to 25 mills but the \$10 head tax levy will be retained.

The \$353,498 increase in the assessed valuation of township real estate was an element that made the tax cut possible. The assessed valuation of real estate there now stands at \$1,250,157. The real estate levy is expected to bring in \$32,133 and the head tax \$12,350. The township expects \$76,555 in state appropriation and \$5,000 from the sale of real estate. The township has three rural schools, Belmont, Boyd's and Pitzer's to sell. All are being used for the last time this year.

The expense budget provides \$86,216 for instructional services which represents the sum due the jointure, \$16,675 in debt service, chiefly in rentals to the Gettysburg School Authority and \$20,187 for transportation. The transportation figure is nearly \$5,000 above that for the current year.

Survey Other Districts

A survey of other school districts in the Gettysburg Jointure showed these situations with regard to taxes:

Freedom with an increase of only \$400 in its assessed valuation is considered. (Continued On Page 2)

2 HANOVER MEN ARE ACQUITTED OF TRESPASSING

Two Hanover men, Anthony J. Misi and John Sponsler, were acquitted of trespassing on property of R. H. Sheppard, near Hanover, following a hearing in Adams County Court Monday afternoon.

Russell H. Dresher, an employee of the Hanover Shoe Farms, had brought the charge after the two had stopped their car in a lane at one of the Sheppard farms on the opening day of the hunting season. According to the testimony Dresher, driving a pickup truck, drove in back of the two men and talked to them immediately after their car stopped. Neither got out of the car. They backed their vehicle out of the lane immediately after Dresher had told them they were on posted land. They also claimed that they drove into the lane when Dresher's vehicle came up behind them on the public road off which the lane opened, in order to permit Dresher to pass them.

"Did No Damage"

The court held that "While there may be some technical guilt, apparently the defendants did no damage. The signs, warning of private property, were not sufficiently clear to establish that the lane itself was private property." The costs were divided between the plaintiffs and defendants and the court gave them a week to pay the costs.

Dennis Ray Stauffer, Littlestown, was ordered to pay \$10 per week for the support of his child following a hearing on a desertion and non-support charge. Stauffer told the court his wife Delores Jean, wouldn't live with him in Pennsylvania and produced a letter in which Mrs. Stauffer, a Kentuckian, suggested her preference to live anywhere except in Pennsylvania. The court held that under the circumstances Stauffer did not have to support his wife.

Divorce Is Granted

Leona H. McIntyre, Gettysburg, was granted a divorce from Robert A. McIntyre, also of Gettysburg, on grounds of cruel and barbarous treatment.

Ira F. Kump, Gettysburg R. 3, was ordered to pay \$10 per week for the support of his five months old son following a hearing. No order. (Continued On Page 7)

County ROA Unit Elects On Monday

1st Lt. Elmer J. Johnson, Air Force Reserve, was elected president of the Adams County Chapter of the Reserve Officers Association of the United States at a meeting Monday evening at the Albert J. Lentz American Legion post.

Lt. Col. Guy E. Brown, Ord. Res., was named vice president and Capt. Joseph H. Riley, DC-Res., was elected secretary-treasurer.

The Gettysburg Joint School Board Monday evening gave final approval to a \$475,000 operating budget for the coming school year, elected an elementary teacher and referred to committees a borough council proposal for laying out streets across school property north of the high school building.

The joint board has no taxing power and each local district's share of the jointure's budget will be raised by taxation in the member districts.

Adoption of the budget came on a roll call vote that showed 22 in favor and three opposed. The three negative votes were cast by the three members of the Franklin Twp. board in attendance. There was no discussion on the motion to adopt the budget which had been given tentative approval a month ago.

Increase of \$63,000

The jointure's budget is about \$63,000 above that for the current year. Discussion last month showed that increased enrollments requiring extra supplies and extra teachers, the operation of the new school buildings and the state-mandated salary increases for teachers contributed to the increase in the budget. Additional teachers and salary increases account for about \$35,000 in the budget jump.

Some of the member districts have set their tax rates for the coming year and some have not yet acted.

In the \$475,000 budget are these principal items: General control, \$19,300; instructional services, \$366,350; auxiliary agencies and coordinate activities, \$7,900; operation of plant, \$41,100; maintenance of plant, \$26,500, and fixed charges, \$26,300

REPORTS GIVEN TO "Y" BOARD

Reports of organizations and officers occupied most of the evening for the board of directors of the Gettysburg YWCA Monday at the association building. Mrs. John S. Rice, the vice president, presided. There were 14 directors present for the May session.

Mrs. Albert Blackburn, Public Affairs chairman, announced the public affairs luncheon for Thursday noon when Dr. Robert Bloom, of Gettysburg College, will speak on "Civil Liberties." Anyone interested may attend with reservations to be made by telephoning the "Y" office.

Opening devotions were led by Mrs. Louise Stanton. Officers' and committee reports followed. Mrs. Wayne Keet, House chairman, reported the addition of two Windsor chairs in the living room and a piece of plate glass for the office desk top. Mrs. William Conover said 120 dinners were served to Rotary in the last month.

Defer N. Y. Reports

Mrs. Victor Meredith reported on Y-Teen activities and Mrs. Elmer Yoder submitted a report for the volunteer personnel committee. Appreciation was expressed for services of Mrs. Florence Grindler, Mrs. Tyson Tipton, Miss Martha Lentz, Mrs. Jessie Easterday, Miss Mary K. Baughman and Mrs. Floyd King.

Mrs. Milton Wagner told of the May Fellowship luncheon by the Council of Church Women and club reports were submitted by Mrs. Conway Williams covering the Annie Danners and the Business and Professional Women's Club. The former group announced plans for entertaining the Joan of Arc Club of Hanover, holding a mother-daughter banquet and serving a similar banquet for the B. and P. Women.

Mrs. Guyon Buehler reported on the Welfare conference held here Monday and Mrs. Williams, executive secretary, said there were 56 meetings with 964 persons attending and 57 volunteers helping last month.

It was voted to defer reports of delegates to the New York conference until the June meeting of the board.

timing its 35-mill tax rate and \$15 head tax. Gettysburg with a \$400,000 increase in assessments is considering a two-mill real estate millage cut and \$250 reduction in head tax.

Mt. Joy Twp. with only \$22,000 additional in assessments is raising its millage from 28 to 35 mills and continuing its \$10 head tax.

Franklin and Highland Twp. have not set their tax rates. Franklin had a \$30,000 drop in real estate assessments and Highland's total went up \$37,000.

The Straban board has tentatively continued its present tax rate of 22 mills and \$14 head tax. That township had an increase of about \$54,000 in assessed valuation.

All of the members of the jointure have been handed a larger bill from the jointure for next year by reason of the \$63,000 budget increase there.

PTA At Delone Elects On Sunday

Matthew J. Gabrys, Hanover, was elected president of the Delone PTA at its final meeting of the season held Sunday in the Delone Catholic High School auditorium, McSherrystown.

Other officers elected include Mrs. Anthony Estrazella, Hanover, vice president; Mrs. Paul R. Trostle, McSherrystown, secretary; Mrs. George Ernst, Littlestown, corresponding secretary. Mrs. Richard Lawrence, retiring president, was presented with an engraved vanity case.

The Delone band, under the direction of Richard P. Feaser, gave a preview of its forthcoming spring concert. The Rev. William R. Lyons, Delone principal, spoke briefly. The Conewago mothers were hostesses.

ities that must be enlarged.

Faced Emergency

"The new addition will be so designed that a second story can be built on it if needed. It will not increase the number of beds available at the hospital immediately, but it will permit better arrangement. About a week ago the hospital reached a point where it could accept no more women, except on an extreme emergency basis — yet there was room available in the men's ward. With the new structure, where all wards are of four beds only, such a condition would not exist. The men could have been moved into two wards thus leaving the remaining room open to women patients.

"This campaign for funds is being operated on a volunteer basis and Philip Jones has done a grand job of organizing the drive.

Make No Profit

"You may wonder if the hospital makes a profit. A hospital does not operate that way. It is open to anyone. Race, creed, color mean nothing, nor does ability to pay. We provide about \$21,000 worth of free service each year. The state helps meet that deficit by providing about \$10,000 per year for charity service. It costs about \$13.25 per patient per day to operate the hospital and the most we receive from a patient is \$12 per day, so you see we are a little short even at best. The generosity of people who have given \$2 or \$3 per year to the hospital has kept us going. When you consider that you get food, lodging, the skills of nurses and others 24 hours a day while in the hospital, \$12 per day is very low. If you hired skilled labor it would cost \$1.50 to \$2 per hour, not including overtime. Figure that out on a 24 hour a day basis, plus cost of food and lodging and estimate how much it would cost you to duplicate what you receive for \$12 at the hospital.

"We hope that everyone will be more than generous in this drive for \$250,000. Your hospital needs it very much." President Roy Hammond presided at the meeting with 57 present.

"DREAMS AND WORK"

So many people ridicule . . . the folks who drift in dreams . . . they say that life is cold and hard . . . devoid of wondrous themes . . . but I for one do not agree . . . with what some people say . . . for to my mind the land of dreams . . . is beautiful and gay . . . dreams are the strong foundation . . . of hope in things to be . . . the starting place of big ideas . . . and great discovery . . . dreams build the future for they are . . . the very essence of . . . things that count most highly . . . like faith and tender love . . . dreams bring delight to searching souls . . . and so I differ from . . . the people who are prone to say . . . that dreams are for the dumb . . . but it is well to bear in mind . . . if dreaming you pursue . . . it takes a lot of earnest work . . . to make your dreams come true.

MUSICAL WILL
PLAY HERSHEY

When the national company of "Guys and Dolls" plays the Community Theater in Hershey for two nights, next Monday and Tuesday, one of the nation's leading baritone will display the talent that has made him so popular. Wilton Clary, as "Sky Masterson" in this fable of Broadway, brings to the role background of performances in the theater's top musicals.

Clary's deep interest in singing comes naturally since his father was Charles A. Clary, famous concert and operetta star of the 1900's. His musical career was launched when he garnered first prize on the Arthur Godfrey Talent Show, then auditioned for Rodgers and Hammerstein and won the coveted role of "Curly" in "Oklahoma." He played Curly for over one year on Broadway and followed with a similar period on the road tour.

He appeared as a guest star on the Robert Q. Lewis show and this led to the leading role in "Texas L'il Darlin'." Following "Texas" he appeared on Broadway with Lawrence Tibbett in "The Barrier" and in recent seasons has won wide acclaim for his performances with the nation's most famous summer musical theaters.

"Guys and Dolls," the prize winning musical, is based on stories and characters created by Damon Runyon and written for the stage by Jo Swerling and Abe Burrows with melodic score by Frank Loesser.

John Granger, twice NCAA boxing champion, was voted Syracuse University's athlete of the year by the school's head coaches.

Mrs. Kapp Named
District President

Mrs. Sewell E. Kapp, Carlisle St., was elected president of the Fifth District of the Daughters of Union Veterans of the Civil War Saturday morning at the ninth annual convention of the organization in the VFW home at Bethlehem Saturday morning. She was installed by the department president of the DUV.

The district includes York, Lancaster, Reading, Harrisburg, Bethlehem and Gettysburg. Mrs. Kapp appointed Maybelle McKenrick as guide and Dora Settle as assistant guard to assist her this year. Alice Wetzel accompanied the women to Bethlehem. All are from Gettysburg and are members of the Salome M. Stewart Tent, 55.

Mrs. Kapp is national press correspondent for the Daughters of Union Veterans, is department chief of staff of Pennsylvania and secretary of the Salome M. Stewart Tent. She is a past president of the latter organization.

Mary Ritter, troop aide. The sit-upons are to be completed and taken along to the meeting next Monday evening, when they will be used for the first time.

It is planned to have a hike on Monday, with the girls meeting at 3:45 p.m. in front of the high school on Maple Ave. Each Brownie will take a nose-bag lunch and a paper cup in addition to her sit-upon, and the hike will be taken to the day camp site, at St. John's Church grounds, at the edge of town. In case of inclement weather, the regular meeting will be held at 3:15 p.m. at the engine house and there will be a doll show with the hike postponed to the following week.

Brooklyn Rapidly Getting Out Of Reach In National Race; Only Two Others Playing .500 Ball

By ED WILKS
The Associated Press

The calendar insists that it's just the second week in May, but the other seven clubs in the National League may be finding it's later than they thought.

And it isn't necessarily because of Brooklyn's incredible getaway. The Brooks, of course, are off on a romp, winning 21 of their 23 games. But what's made that record even more threatening is the fact only two other clubs are playing .500 ball or better.

There's the rub. Nobody's in position to catch the Dodgers right now even if somebody gets around to stopping them.

Braves Are Poor Second
Milwaukee is second, but with a 12-1 record just one game over .500. The New York Giants are right at .500 after 22 games, 9½ back of the Brooks and a half game behind the Braves.

The Dodgers are at Chicago this afternoon, with New York at Cincinnati, Philadelphia at St. Louis and Pittsburgh at Milwaukee in night games.

Good On Road In '54
It was Brooklyn, incidentally, that was the most successful road team in the NL last season, winning 47 of 77 for a .610 percentage. In the West, the Brooks were .636, taking 28 of 64 from the Cardinals, Braves, Cubs and Redlegs.

Vice President Buzby Bavasi doesn't look for his Dodgers to come out of the West unbeaten. All he's asking is that they come home with a 27-5 record. He's willing to take a 6-3 record on the trip.

Manager Walt Alton, who isn't much for talking, said simply, "You can't expect it to continue—but I'm hoping."

The Brooks presently have a 10-game winning streak going, their second of the season after setting a major league mark by winning the first 10 of the schedule.

Shippensburg High School's undefeated baseball team made certain of at least a tie for first place in the South Penn League by blanking the Gettysburg High Warriors 11-0 at Shippensburg Monday as Bill Weaver limited the locals to but one hit.

Ronnie Keller secured Gettysburg's lone safety, a single to left in the fourth inning. Weaver fanned 11 and walked three.

Shippensburg tucked the game away in the first inning by scoring six runs after two were out. Gribble fanned after which Lynn walked. B. Weaver grounded out.

Successive hits by R. Weaver, Sowers, Wenger, Myers, Lightfoot and Sellhamer, plus an outfield miscue, produced the tallies.

Ron Gligous replaced Hartzel on the mound for Gettysburg in the first inning and pitched until relieved by Art Re in the fifth.

A pair of singles and an error added another Shippensburg run in the second.

Three hits, including a double by R. Weaver, and an error enabled Shippensburg to add three more tallies in the fourth.

The final run came in the sixth via an error, walk and a single. Coach Howard Shoemaker's team will meet Chambersburg here Thursday afternoon at 3:30 in another league game. The Warriors are now 3-3 for the entire season.

Leader Enters Investigation Of Johnson Fight Reportedly Ready To Shut Down Penna. Boxing

PHILADELPHIA (AP)—Gov. George M. Leader of Pennsylvania today enters the investigation of Harold Johnson's sudden collapse in a nationally televised fight, reportedly ready to shut down boxing in the state if a satisfactory explanation is not found.

Leader summoned the State Athletic Commission to meet with him in the state capital at Harrisburg to discuss last Friday's fight here in which Johnson, the No. 1 light heavyweight contender, was unable to answer the bell for the third round of his encounter with heavy-weight Julio Mederos.

Meanwhile, medical tests continued on Johnson and an orange he ate prior to entering the ring, to determine if he had been drugged. And police began a probe of the fight betting odds.

Check Gambling Angle
Inspector John F. Driscoll said the probe was to ascertain if gamblers might have been involved in Johnson's collapse.

Driscoll said he did not know yet if the odds had fluctuated at the last minute. But Senator Benjamin R. Donolow of Philadelphia told the state Senate in Harrisburg yesterday that 6-1 odds favoring Johnson had dropped to 2-1 by fight time.

Donolow, in renewing a demand of several months for an investigation of boxing, asserted that the state fight game is "run by hoodlums and racketeers."

The report that Leader might

possibly halt Pennsylvania boxing was given yesterday by state Senator John H. Dent after he conferred with the governor.

Leader Silent
While Leader remained silent other than to issue the call for today's meeting, Dent told the Senate:

"If it (the explanation for the outcome of the fight) does not appeal to the governor as being an up and answer to this incident in his bold and forthright manner will close the sport down long enough for the people of Pennsylvania to again have confidence in those who participate in it."

Johnson, who had easily decided Mederos in a previous bout, passed a physical examination 10 hours before Friday's fight.

In Hospital Since
However, ringsiders said he stumbled entering the ring. Untold numbers of television viewers saw him start to wobble at the end of the first round. And in the second round Johnson fell to the canvas without being hit. By the end of the round he was unable to sit or stand without aid.

Since the fight, the 26-year-old Philadelphia has been hospitalized under police guard.

Johnson told investigators that an orange given him by a stranger prior to the fight left him in a dazed condition. Pieces of this orange found in his dressing room

COURT RULING MAY SEND TED INTO BASEBALL

MIAMI, Fla. (AP)—A Florida circuit judge may decide today whether Ted Williams returns to baseball.

Dade County's senior circuit Judge, George E. Holt, yesterday granted a divorce to Mrs. Doris Soule Williams on her plea that she and the Boston Red Sox star "just couldn't get along."

But the Tennessee-born judge postponed until today a ruling on how much money Williams must pay the attractive, dark-haired woman he married 11 years ago.

One of Mrs. Williams' attorneys indicated she had agreed to a lump settlement.

Not Sure About Ball
It was believed Williams would await the court's ruling on the size of the settlement before making up his mind whether to return to the game that made him famous and paid him as high as \$100,000 a season.

"I'm not sure if I'll play baseball," he said after the 30-minute divorce hearing.

Williams attended the hearing but didn't take the stand and did not contest the action.

"Ted told me he didn't think he wanted to be married any more," Mrs. Williams told the court.

Settlement Efforts Failed
They were married May 4, 1944, in Pensacola, Fla., where she had been a hotel cashier and he was in the Navy. Mrs. Williams filed for separate maintenance Jan. 19, 1954, charging "mental abuse, both private and public."

Attorneys for both sides attempted to bring about an out-of-court settlement, but when these efforts failed, she filed for an out-right divorce.

Williams operates a fishing tackle business in Miami with Sam Sneed, the golf star, but spends most of his time fishing in the Florida Keys.

PRIEST RENAMED HEAD OF PCIAA

The Rev. William Lyons of Delone Catholic High School, McSherrystown, Monday was re-elected, president of the Pennsylvania Catholic Interscholastic Athletic Assn.

In addition three other top officials of the PCIAA were re-elected to serve another year at the group's annual spring meeting. The PCIAA controls sports activity of most of the state's parochial schools.

The other officials are vice president, the Rev. Thomas Carlin, Scranton; treasurer, the Rev. Stephen Dady, Allentown, and executive secretary, the Rev. John McDowell, Pittsburgh. Their election marked the first time in recent PCIAA history that the entire slate of top officers was chosen to serve again.

Under the above officers during the past year the PCIAA constitution and by-laws were revised. A permanent office for the association was established Harrisburg for the purpose of better supervision, service and control.

Regional committees were appointed from the Eastern and Western sections of the state. The PCIAA executive board is composed of superintendents of schools in each of the seven Catholic dioceses of Pennsylvania together with two delegates from each diocese. The regional committees are appointed by superintendents of the schools, two from each diocese in the Eastern and Western areas.

ORIOLES SIGN CATCHER
BIRMINGHAM, Ala. (AP)—Braxton Nail Jr., All-Southeastern Conference catcher for Mississippi State, has signed with Baltimore of the American League. Johnny Harris, Oriole scout, said yesterday that Nail would join York, Pa., of the Piedmont League, after graduation.

FROSH NINE LOSES
The Gettysburg College freshman baseball team dropped a 10-0 decision at Penn State University, Monday.

A University of Michigan study shows that 67 per cent of the children of professional men who graduate from high school go on to college but only 26 per cent of the children of unskilled laborers go.

are still undergoing analysis. Preliminary checks indicated, State Athletic Commission spokesmen said, that Johnson had not been given any common drug.

STARTS MOVE TO REGAIN MEDALS WON BY THORPE

HARRISBURG (AP)—Rep. John F. Bonner (D-Carbon) is seeking to start a new move to have the Olympic medals won by Jim Thorpe returned so they can be placed in a memorial to the great Indian athlete.

Bonner introduced a resolution in the House yesterday asking the General Assembly to urge the President and Congress "to use their influence to secure the return of the Olympic awards, medals and prizes given to Jim Thorpe."

The medals for winning the pentathlon and decathlon were taken away from Thorpe by the Olympic committee which declared him ineligible for violating amateur rules by playing professional baseball.

"The Olympic committee has no rules that the playing of professional baseball such as indulged in by Jim Thorpe is not now considered as a violation of amateur rules," the resolution states.

The resolution, if adopted, would be sent to the presiding officers of the House and Senate in Washington and to each Pennsylvania congressman as well as to the President.

GO AHEAD WITH AUSTRIAN PEACE TREATY PLANS DESPITE HITCH

By LYNN HEINZERLING

VIENNA, Austria (AP)—The West went ahead today with plans for signing the Austrian independence treaty this weekend despite a new monkey wrench from the Soviets.

In the continuing talks here on the treaty draft, Russian Ambassador I. I. Ilyichev demanded yesterday that economic concessions Moscow promised last month to the Austrians be left out of the pact.

Instead, Ilyichev insisted that the original draft treaty's provisions for reparations to Russia remain as written in 1949. He said the reductions Soviet Foreign Minister V. M. Molotov had agreed to in March should be covered in a separate pact to be signed later only by the Russians and the Austrians.

To Renew Discussion

Discussion of the issue was to be renewed today by Ilyichev and the British, French and U.S. ambassadors to Austria, who have been working out a final treaty draft since May 2. The envoys have agreed on most other questions.

Despite the hitch over reparations, the optimistic belief prevailed that the Big Four foreign ministers would come here this

weekend to sign the treaty ending the 10-year occupation of Austria.

In Moscow, Austrian Ambassador Norbert Bischoff said Molotov had told him at a reception last night he is ready to sign the treaty in Vienna next Sunday.

Going To Vienna

Reports from Paris said U.S. Secretary of State Dulles, British Foreign Secretary Harold Macmillan and French Foreign Minister Antoine Pinay planned to fly to Vienna Thursday after conclusion of the NATO Council meeting.

The article on reparations to which all four occupation powers agreed in 1949 awarded the Russians extensive Austrian oil holdings for 25 to 30 years, assets of the big Danube Steamship Shipping Co. and 150 million dollars in cash for 300 industrial enterprises seized by the Soviets after the war. The three Western Powers made no reparations claims.

Molotov agreed in his Moscow conference with Austrian Chancellor Julius Raab to return the shipping company, exchange the oil holdings for a million tons of oil annually for 10 years, and to accept goods instead of cash for the other properties.

BIG THREE WILL INVITE RUSSIA TO TOP SESSION

By ARTHUR GAYSHON

PARIS (AP)—The Western Big Three were reported reading notes today asking Soviet Premier Nikolai Bulganin to a brief meeting this summer of the Big Four government chiefs.

Diplomatic informants said President Eisenhower had agreed reluctantly to attend such a top-level gathering on European problems. The conference would strive for general agreements which the foreign ministers then would try to work out in detail.

The informants said Eisenhower okayed the plan at Britain's urgent request. American officials said privately Eisenhower would have preferred a foreign ministers' meeting first to prepare the ground for the top men.

U.S. Secretary of State Dulles was expected to communicate the plan for the conference "at the summit" to the session here today of the NATO foreign ministers' council meeting. The council, which yesterday welcomed West Germany as its 15th member, was considered certain to approve.

Sources said Dulles, British Foreign Secretary Harold Macmillan and French Foreign Minister Antoine Pinay probably would send off their invitations to the Kremlin by Wednesday.

No White House Comment

(In Washington, White House Press Secretary James C. Hagerty said there would be no comment on the Paris report.)

Informants said the Western Allies would propose this kind of conference to the Russians:

1. Eisenhower and the British and French Premiers would meet with Bulganin preferably around mid-July in neutral Switzerland.
 2. The four government heads would have no fixed agenda, but would try to formulate broad directives aimed at settling specific causes of East-West tension in Europe.
 3. These directives would be passed on to the foreign ministers to be translated into detailed agreements.
 4. The four government chiefs would leave the conference immediately after drawing up a list of talking points and possible ways of settling them. This task probably would last only a week or so.
- The Western foreign ministers, who have been discussing these proposals here since last weekend, reportedly have decided against

The Allentown Redbirds lost 4-2 last night on a two-run ninth inning rally. But club officials wanted to thank those who braved 50-degree weather to see the Eastern League contest.

They invited the 303 fans to see tonight's game free.

Williamsport pushed the winning runs across on a passed ball and steal of home to creep within 15 percentage points of league-leading Binghamton.

The other league games were chilly out. Elmira at Albany; Schenectady at Wilkes-Barre; and Reading at Binghamton will try again tonight.

SCRIBE BLAMES HEALTH SERVICE FOR POLIO FUSS

By JAMES MARLOW

WASHINGTON (AP)—At this point there are two main questions behind the confusion about the anti-polio vaccine: Is it safe? Is the government in any way responsible for some of the confusion?

Is it safe? The experts say yes. But the government is checking. Of the five million children vaccinated since mid-April, 51 have developed polio, 44 of them after being given the vaccine of one company, Cutter Laboratories.

Cutter's vaccine was withdrawn from use. The government is studying it intensively. Whether there is any connection between Cutter's vaccine and the polio in the children who got it may be known within two weeks.

Blames Government

Is the government in any way responsible for some of the confusion? The answer to this seems to be yes. After saying for weeks the vaccine being used is safe, Dr. Leonard Scheele, surgeon general of the U.S. Public Health Service, has called for a temporary halt in vaccinations.

Why? So the government can make a more thorough check on all the companies' vaccines than it did before. It seems from what is known the government had time to do before what it is doing now. In last summer's test of the vac-

pinning themselves down to an agenda, or a specific time and place for the meeting, in their invitations to the Russians.

cine developed by Dr. Jonas Salk, sponsored by the National Foundation for Infantile Paralysis, all the vaccine used was made by two companies, Eli Lilly and Parke-Davis. Since only several hundred thousand children were getting this vaccine in 1954, only a comparatively few batches of it were needed.

Vaccine Triple-Checked
But every one of these batches was triple-checked: by the man-

ufacturers, by Dr. Salk for the foundation, and by the National Institutes of Health, part of the Public Health Service.

The foundation further contracted not only with Lilly and Parke-Davis but with four other manufacturers, including Cutter, to make vaccine for use on perhaps nine million children in the spring of 1955, if results of the 1954 test proved favorable.

On April 12 came the announce-

ment the vaccine had proved 60 to 90 per cent effective. At once, with governmental approval, the manufacturers began distributing it.

"Continuous Experience"

When asked why the government did not check each individual batch, Dr. Scheele said that since the vaccine was first produced, a number of companies have had "continuous experience" in producing it and have "shown their

abilities." He explained there had been spot checks and approval of the commercial laboratories' production techniques.

If production of this vaccine began last November, as a foundation official says and it takes 90 days to make—it would seem the health service had time between November and April 12 to check the individual batches. Now it is making a much more thorough check.

the New PACKARD with Torsion-Level Ride

A truly distinctive fine car—the new Packard. Distinctive in having exclusive Torsion-Level suspension... providing a ride so smooth, so level, so comfortable on any road it has created a higher concept of motoring pleasure! Distinctive in its quiet magnificence, with color harmonies both refreshing and sophisticated and interiors designed for your personal luxury.

Torsion-Level Ride—Packard's newest achievement in creative engineering leadership—eliminates conventional coil and leaf springs. In other cars, twisting forces due to wheel shock are transmitted to the frame with resulting pitch and bounce of passengers and wracking of car body and frame. With the new Packard these same twisting forces are transmitted along the new torsion bar system and absorbed before they can reach frame or passengers.

Distinctive, too, are Packard's new "free-breathing" V-8 engine, developing up to 275 horsepower... and the agile automatic response of Packard's two-in-one Twin Ultramatic Transmission.

Here, in all its distinction, is a fine new car with a fine old name.

der for support of Mrs. Kump was entered. She told the court she left her husband, to whom she was wed July 17, 1954, because "he was always arguing" and added that she was "not willing to go back to him."

The desertion charge against Mark Arentz, Gettysburg R. 1, was dropped when the couple appeared in court to report they had resolved their differences and were "getting along good now." Arentz was given 30 days to pay the costs.

Suspension of the support order against Earl J. DeHoff Jr., Lebanon, was continued following a hearing. The order is for a daughter who is now grown, but who has a curvature of the spine which limits her employment.

Couple Is Reconciled

Mr. and Mrs. LeRoy C. Corbin, Fairfield R. 2, will be reconciled but Mrs. Corbin will handle most of the cash in the family following a hearing on a desertion and non-support case. Mrs. Corbin told the court she and her husband had

lived together since their wedding in 1935 until last week when she had him arrested on the non-support charge. The testimony indicated that much of the difficulty was financial. The order of court was that Corbin should receive \$8 of his \$40 per week salary for traveling and personal expenses and Mrs. Corbin should be given \$32 per week for household expenses. The couple was directed to report June 13 and by that time have some plan for further settlement.

Argument was held on the trespass action of Maurice Bollinger, Gettysburg, versus the Adams County Novelty Co. and James A. and James B. Orndorff, trading as Orndorff Brothers, Boonauville. Attorneys John MacPhail and Edward B. Buleit presented briefs raising questions concerning various phases of the original complaint in the case. Attorney Eugene Hartman answered. The matter concerned, partially, whether the Novelty Co. and Orndorff Brothers were being sued jointly or alternately, and other questions involving technical phases of the complaint. The court will hand down an opinion later.

Stage Company. The contract covers the various sets of curtains, spotlights and all other stage equipment. The contract was awarded by the school authority on recommendation of the Supply Committee which chose the low bid among several offers.

Elect New Teacher

The new teacher elected Monday evening is Mrs. Diane Dahlander, York, a graduate of Beaver College with two years teaching experience in York and in Virginia. Her starting salary here will be \$2,800 on the basis of her teaching experience. She will teach in the elementary grades.

She was elected on recommendation of the Teacher and Curriculum Committee. Dr. Lloyd C. Keefe, school superintendent, said one or possibly two more grade school teachers are needed for next year.

After a letter from Borough Engineer LeRoy V. Winebrenner was read, council's proposal on opening extensions of Wainwright Ave., Wade Ave. and S. Stratton St. through the high school and Keefe Elementary School grounds was referred to the board's Finance and Property Committees for study.

To Go Over Ground Together

The suggestion was made that the school board committees and a council committee go over the ground together. It was pointed out that some of the land involved is borough school district and some joint school district property. This is a complicating factor and the school authority is involved because at least some of the land secures school authority bonds.

Permission was given for the high school alumni association to hold its annual banquet and dance in the school cafeteria and gymnasium May 27 and the directors received an invitation to attend both events at their own expense.

A request from Sunbeam High School in Corpus Christi, Tex., for permission for 30 of their students to sleep in a school building here on a Washington-New York trip in June was turned down on the grounds that such facilities are not available here.

Inspect New Auditorium

Member boards were reminded that semi-annual rental payments to the authority are due June 15. Current bills totaling \$3,593 were ordered paid. Routine reports showed a current treasury balance of \$33,511 after expenses of \$40,934 and tuition receipts of \$44,544; a cafeteria fund balance of \$2,655 after \$3,292 was received from meals, \$734 from federal aid and \$78 from the

milk fund. Cafeteria expenses were \$3,588. The activities fund balance was given at \$11,112 and the athletic

fund has a balance of \$1,863 after expenses of \$42 last month and no receipts.

After adjournment about 9:30 p.m. the directors went to the new auditorium in the high school additional

for an inspection of work progress there. Seats are being installed this week.

Twelve directors were absent Monday evening with President R. D. Wickerham presiding.

I was amazed when the BLUE CROSS Enrollment Director* told me how much BLUE CROSS money goes for the care of hospitalized members...

*O. Leon Gonzalez, Enrollment Director of Blue Cross in Central Pennsylvania

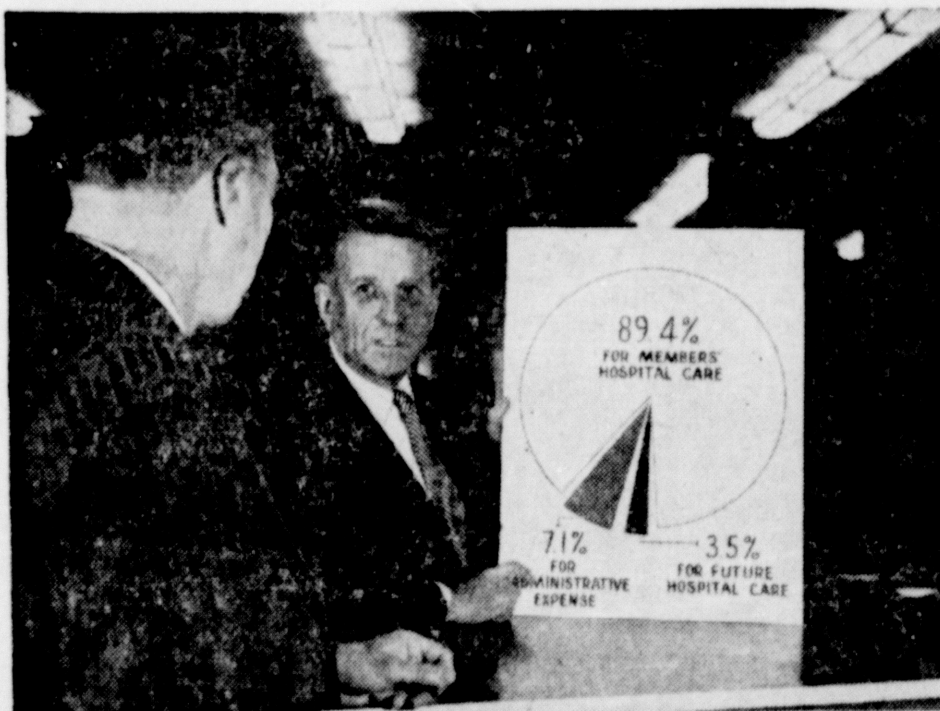

MR. NISLEY: I suppose all BLUE CROSS members want to know where their money goes. Can you tell me how much money BLUE CROSS in this area paid for hospital care in 1954?

MR. GONZALEZ: During 1954, more than \$9 million, representing almost 90 percent of its total income, was paid to hospitals for the care of Blue Cross members.

MR. NISLEY: Why, that means about 90 cents out of each dollar paid in membership dues was returned to members in the form of hospital care!

MR. GONZALEZ: Yes, and of the remainder, only about 7 cents out of each dollar earned was used for administration of the Plan, leaving 3 cents for the Blue Cross reserve fund for emergencies.

MR. NISLEY: How do those amounts compare with previous years?

MR. GONZALEZ: Last year topped all previous records, both in the amount of money paid for the care of members, and in the number of members hospitalized.

MR. NISLEY: Are there any other expenditures of Blue Cross funds?

MR. GONZALEZ: Since Blue Cross is a nonprofit organization, it has only one source of income, subscribers' dues, and that money can be used for only one purpose, to provide hospital care for members when it is needed. With Blue Cross you really get your money's worth!

Human Can Survive Atomic Attack If They Have Proper Structure, New Test Reveals

By ALTON L. BLAKESLEE
And BILL BECKER

SURVIVAL CITY, Nev.—The frightening and sobering reality of survival in the atomic age was driven home to Americans today as the damage to this desert town community was totaled up.

The mighty shock wave of last week's atomic explosion buried the Darling family — fortunately only mannequins — in their home on Doodson Drive, wiped out their neighbors next door and the folks down the block.

The 4,700-foot row, however, was not a complete loss—two out of four homes withstood the gigantic pressure of the biggest open test shot ever held in the United States. Its power was equal to 35,000 tons of TNT.

But the home at the 5,500-foot mark especially built and reinforced—did not stand up perhaps as well as expected. The roof was blown off, much of the front craved in and all windows smashed.

Can Survive Attack
The Darling family's fate and that of their neighbors—especially the luckier ones—pointed up one object lesson: You can survive a nuclear attack if you have the right kind of home.

Fifteen members of the Darling family "perished" in the collapse of their two-story brick and cinder block home. The walls blew out, the chimney fell in sections as though sliced by some multiple

the bathroom shelter that stood up to the mighty blow impressed most observers.

It's a concrete walled shelter costing \$500 and people in it would have come through unscathed. Harold L. Goodwin, test director of the Federal Civil Defense Administration, believes.

"I think we learned a lot from the test," Goodwin told the Associated Press. "It is too soon to tell how much. We need information from instruments measuring various effects."

The FCDA officials report, in brief, gave this picture:

At 10,500 feet—two miles—where six women endured the shock in a trench, stand three homes which received only minor damage and are repairable. Most windows were blown out. A couple of trailers were dumped over in the same line. But electric power lines remained intact.

At 15,000 feet, the blow bent some panels by compression action in the front of a row of three industrial sheds. Trailers parked here fared well, except for some broken windows.

Inside the trailers, as well as in homes, the negative phase of the pressure sometimes pulled drawers open, or lifted the cover of a gas stove.

A CD rescue truck parked at 1,800 feet—about a third of a mile—was blown to bits. The pieces were scattered over a wide area. Up-close shelters seemed to be

intact, except for household tool shed types at 2,750 feet. Underground bunkers apparently came through intact.

There was no residual radiation in the test town. The fall-out went north away from the homes, although the 4,700-foot line probably received an initial bath of 400 roentgens of X-rays, a dose which could be fatal to humans. But when X-rays pass through mortar or wood, they do not leave any residual radioactivity.

Some Food Spilled

Most food shelves in the two smashed homes at 4,700 feet were still up, with some foodstuffs spilled onto the floor. At that distance they would not be radioactive but whether the bath of X-rays might have altered their flavor or created toxic effects remains to be tested.

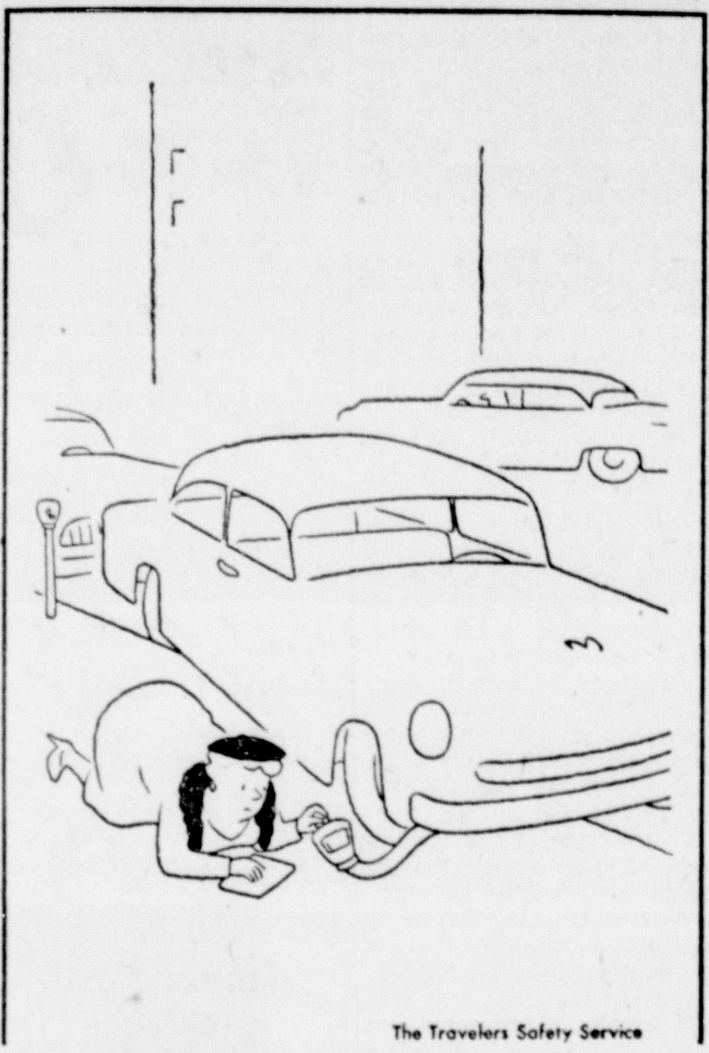

A food station located at 2,500 feet was subjected to neutron bombardment from the blast. Items stored there are expected to provide an accurate guide, when tested, of what happens to some 60 different kinds of food.

But as of today ants, birds and lizards, resuming the life pattern of the desert, are the only creatures dining on the spilled jars of food in the atom-rocked pantries.

U. S. fire losses in 1954 were \$870,984,000 compared to \$903,400,000 in 1953 and \$794,953,000 in 1952, says the National Board of Fire Underwriters.

Dear Sir:

After listening to the Spring Concert rendered by the youth of our local High School and being thrilled beyond measure, I feel that some word of commendation is due to them as well as to their instructors. This was a marvellous program and worth the time spent to prepare it. It was fitting that so large a group of people listened to it. What a privilege the youth of today have to be so trained. What a future for music in our local community. After listening to the outstanding ability of such youthful singers as Doris Hamme and Ronald Ditzler one can begin to hope that some day before long singers for the Metropolitan Opera will be discovered in our community.

Let us have more of these affairs. Surely it would not be too much to ask for at least two each year. There are those of us who enjoy such things as others enjoy football and basketball and should be catered to in the same fashion.

SAYS U.S. PLANS CLOSER CHECKS ON SALK VACCINE

By CHARLES F. BARRETT
WASHINGTON (AP)—Rep. Priest (D-Tenn.) said today the government evidently plans a "much closer" check in the future before clearing supplies of Salk antipolio vaccine for public use.

Some Democrats in Congress said undue confusion had accompanied the Eisenhower administration's handling of its part of the program, but Priest described as "well in order" the recommendation for a temporary halt in mass vaccinations.

He is chairman of the Commerce Committee, which handles most health legislation. On the basis of consultations with administration officials, he said in an interview he understands the Health and Welfare Department is planning a much closer laboratory check on future supplies before they are released.

Invite Mrs. Hobby
Chairman Spence (D-Ky.), announcing his House Banking Committee will resume hearings on polio issues tomorrow, gave a

little less enthusiastic backing to administration officials. Spence said he thinks Dr. Leonard Scheele, surgeon general of the Public Health Service, who called for the inoculation standstill, is "a good public servant, doing the best he can in a tough spot."

In addition to Scheele, Spence invited Secretary of Welfare Hobby to testify publicly. The Public Health Service is in her department. The Banking Committee is considering several bills to clamp compulsory federal controls over vaccine distribution and prices. The administration has opposed such controls.

Scheele on Saturday urged the halt in vaccinations after a group of scientists studied present testing standards and requirements. The conference was called after polio developed in children who had recently received the vaccine. The number of such confirmed cases stood at 51 today.

Dr. Jonas E. Salk, developer of the vaccine, gave assurance in Pittsburgh last night that injection No. 1 will not lose its potency if shot No. 2 is delayed beyond four weeks.

Won't Waste No. 1
Salk originally recommended a wait of from two to four weeks between the first two shots to produce a maximum degree of immunity before the 1955 polio season. But he said a longer wait

Wife Is Held On Homicide Charge

PHILADELPHIA (AP)—Mrs. Estelle Goings, 35, was held on a charge of homicide by stabbing today in the death of her husband, George, 38.

Capt. David H. Roberts, head of the homicide squad, said Mrs. Goings admitted stabbing her husband with a butcher knife in the kitchen of their West Philadelphia home Saturday but that it happened while they were "just fooling around."

The officer said she told detectives yesterday that her husband had told her as he left for the hospital not to tell police what had occurred.

He was found dying at the steering wheel of his car.

MADE ILL BY GAS

WILKES-BARRE, Pa. (AP)—Gas fumes filled the plant of the King Fifth Wheel Co. in nearby Mountaintop yesterday, sickening 30 workmen. One was hospitalized.

A company spokesman said the gas seepage may have been from the propane heat treating furnace. The firm makes special wheels for wagons and trucks.

ing period might have a better effect in the long run.

He said through a spokesman the first shot probably would stay potent even if the second were not given until a year or two later. He is still working on tests aimed at finding the most effective spacing of shots.

The present recommendation is for a third booster shot about seven months after the first two. Except in Michigan, where inoculations went ahead yesterday, there was a shutdown in the mass vaccination program. Many states did not have on hand supplies with which they could continue.

Now Many Wear FALSE TEETH With More Comfort

FASTEETH, a pleasant alkaline (non-acid) powder, holds false teeth more firmly. To eat and talk in more comfort, just sprinkle a little FASTEETH on your plates. No gummy, goopy, pasty taste or feeling. Checks "plate odor" (denture breath). Get FASTEETH at any drug counter.

GAS is FINE in The Furnace—not in Your Stomach

If your stomach burns "like fire" your food is not digesting quickly enough. It is turning into gas. So you are in misery.

SYS-TONE is helping such victims all over Gettysburg. This new medicine is taken with meals. It works with your food. Prevents gas, makes richer blood, stronger nerves. Contains vitamins, herbs and minerals. Gas-filled, nervous, worn-out people soon feel different all over. So don't suffer. Get SYS-TONE — Peoples Drug Store.

TAKE HUBBY ALONG WHEN BUYING HATS

By DOROTHY ROE
AP Women's Editor

The best way to keep your husband from making cracks about your new hat is to take him along when you buy it, says Sally Victor, who has been designing feminine headgear for more than 20 years.

"When a man has a chance to help his wife choose a hat, chances are he'll get more enthusiastic than she is," says Sally. "Some-

times he will urge her to select more than one.

"I'm always delighted when a customer brings her husband along. That means she won't be sending the hat back next day, saying 'My husband wouldn't let me keep it.'"

Good Hat Critics

"Besides, men are good hat critics. They are interested only in what makes a woman look pretty—not in what is the current fad. If you want a really honest opinion on a new hat, go to a man every time."

Sally can back up her statements with impressive examples. President Eisenhower is one of the most ardent admirers of his wife's pretty hats, all of which are made by Mrs. Victor. Several times a year Sally appears at the White

House, complete with hat boxes, and there is a long, happy and typically feminine session between designer and First Lady, while Mamie selects her hats for the coming season.

"I agree with the men," says Sally, "that the only sensible reason for wearing a hat is because it makes you look pretty. No woman really wears a hat to keep her head warm, or to keep off the rain. But no really smart woman feels properly dressed for the street without a hat."

In 1896, two Americans, George Harbo and Frank Samuelson, rowed an 18-foot boat across the Atlantic using neither sails nor motor.

Rooms
Bedrooms Two
Closets Five
Cubage
House 21,400 ft.
Garage 40'x25'

A distinctly modern, one-story house, "The Acumet," today's presentation from the Home of the Week Service, contains six rooms.

To blend with the homey charms of "The Acumet," a clappedboard exterior finish seems ideal. White is suggested for the exterior color with painted blinds, colored roofing and the scalloped edging along the roof line adding decorative charm and appeal to the outside of the house.

The little port hole window that serves the practical function of providing light for the attic storage is also a decorative detail that dresses up the exterior of "The Acumet."

Measuring 40 by 25 feet the house proper has a cubage of 21,400 feet. Cubage of the garage is 6,800 feet. At least a 90-foot lot would be required to build the house plus the attached two-car garage. "The Acumet" can be built in any type of a location but will be most attractive if set back a good distance from the street or road.

There are two good-sized bedrooms in the house. And there is ample closet space, not only in the bedrooms, but throughout the entire

house. An extra large linen closet is located conveniently near to the bedrooms and the bath.

Definitely a work center, the kitchen is placed between the breakfast-utility room and the dining room. Thus you can serve meals in either room with equal ease and convenience. Although not specified in the accompanying plan, china cabinets can easily be built into two corners of the dining room.

Most spacious of the rooms in "The Acumet," the living room is well planned; doors are so placed that you don't have to walk through the center of the room to get from one part of the house to another. If you so desire, you can furnish and arrange the rear section of the living room so that it can be used as a den or library.

Your heating equipment should be placed under the living room in the basement of the "The Acumet." This will leave a generous amount of basement area to do with as you wish.

Blueprints Available
Complete plans and specifications for this house and all other "Home of the Week" designs are available at moderate cost.

Arkansas Duck Is Killed In Russia

CORPUS CHRISTI, Tex. (P)—A duck banded on the Arkansas Pass wildlife refuge near here in 1951 was reported killed at Kresta Bay in Russia last spring.

Refuge Manager Julian Howard said yesterday he learned of the duck's flight in a report from the Washington office of the U. S. Fish and Wildlife Service. A Russian official relayed the news to Washington from Moscow.

Kresta Bay is just south of the Arctic Circle.

Can't Find "Crazy Man" On St. Helena

FERDALE, Md. (P)—Police of Anne Arundel County on Chesapeake Bay have given up looking for a "crazy occupant" on St. Helena Island.

They combed the small island over the weekend after someone found a note in a pickle jar on a beach. Dated April 7, 1955, it read: "Help. Am on St. Helena Island, Severn River. Am being chased by crazy occupant who eats people alive. Get police and come quick." "Arthur Smith."

Life Of Seed Depends On Soil Which Covers It

When seeds are sown directly in garden soil they face many hazards. It is not unusual for professional growers, sowing top quality seed, to fail to "get a catch." But home gardeners can protect their seeds, with precautions which would be prohibitive on large acreage, and they are well advised to do it.

The first fight which a growing seed must win is the struggle to reach the sun. This is no small matter in a heavy soil, which tends to form a crust, which a tiny seedling may not be able to penetrate. The top inch of soil, for this reason, is to the seed the most important in the garden.

It will pay home gardeners well to prepare a special soil with which to cover the seed. Save your best loose, sandy loam and mix in all the compost you can, and lacking compost use peat moss. Then after the seed is sown, cover with this special soil, which will not form a crust and will allow both water and air to penetrate for the benefit of your seedlings.

This treatment is especially important in hot weather, when most soil is liable to bake into a surface crust.

Other hazards lie in the path of a seed sown in the garden. Its life may be destroyed before its sprout emerges from the soil by drowning, when water stands too long in the spot where it was sown; or by disease, especially in cold damp weather, which encourages the growth of molds and fungi, while delaying germination of the seed.

Disinfectants are obtainable with which seeds can be treated, to protect them from disease.

Soil must be firmed above the seeds, to form close contact, and prevent air spaces from separating the soil and seed. This is especially important with beet and Swiss chard seeds, and others of large and irregular shape. But firmed does not mean pounding. Press down with the hoe blade, or use the side of a rake; and afterwards draw the rake lightly over the row to break up the crust and prevent baking.

Experienced gardeners learn through trial and error to watch this point, and take precautions to avoid conditions which may prevent seeds from growing. A heavy rain falling soon after seed is sown may pack the soil too hard, especially if it is followed by sunshine. Until the seed has sprouted the soil surface over it should be moist and loose.

When the ground dries out excessively in the spring sprinkle the rows in which seed have been sown to prevent them lying dormant for lack of moisture. This is the only time when the garden should be sprinkled, rather than soaked.

Two Yorkers Hurt In Car-Cycle Accident

Two York brothers were injured Sunday evening at 5:30 o'clock, three miles west of McSherrystown on the Gettysburg-Hanover Rd., when their motorcycle struck the rear of a car operated by Lloyd R. Harner, 28, Littlestown R. 2.

State police said Harner was slowing for a turn when the 'cycle, operated by Edward L. Bievenour, 19, Green St., York, struck the rear bumper of the car and then upset on the highway. The car was undamaged. Damage to the motorcycle was listed at \$35. Bievenour and his brother Robert Bievenour, 21, a passenger on the 'cycle, were removed to the Hanover Hospital by the McSherrystown Rescue Truck. Robert had a severe laceration of the scalp and body bruises. Edward had head injuries and body bruises, police said.

CHIMNEY FIRE

Fairfield firemen were called Saturday to extinguish a chimney fire at the home of Joseph Yohe, Orrtanna.

ADVERTISE IN THE TIMES

Secret Of Radish Quality— Sow Little But Sow Often

The first radish he harvests thrills the home gardener more than the first robin. Three weeks, more or less, from the time the seed is sown, round, red spicy roots are ready to serve, bringing to the menu a zest which stimulates winter-jaded appetites.

Yet many home gardeners have trouble devising a radish program which avoids the waste that comes when a planting is too large, and only a fraction can be used before the roots turn pithy, and must be thrown away.

The cause of this is the very short season that early radishes remain edible. The earlier they are the shorter this season, because they are growing fast, and quickly pass by the edible stage on their way to the goal of all plant life, the production of seed.

With radishes, as with other crops, you must sow according to what you need. Figure out the number you will use in a week, and estimate that twelve early radishes can be produced in a foot of garden row. Then sow a week's supply of an early variety at a time.

Midseason radishes will be usable for two weeks, so two weeks' supply of them can be sown. The early varieties do not grow well in hot weather.

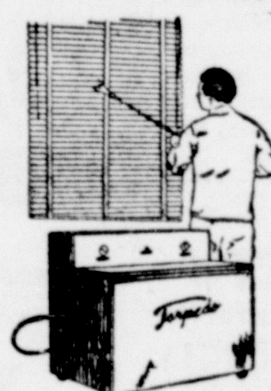

If you want a supply all summer, sow a late, summer variety for that season. But frequent sowings in small lots is a good rule for all except winter radishes which take two months to mature and remain good for six weeks. They grow very large, some weighing several pounds.

One way to grow early radishes is to mix them with the seeds of parsley, parsnips, carrots and beets, all of which are slow to germinate. Not more than a tenth as many radishes as the other seeds should be used. The radishes will germinate quickly, "marking the row" where the other seeds lie, which will assist you in cultivating. Be sure to pull and eat the radishes as they mature before they can crowd the slower crops.

Canadian officials report that average temperatures in their country are rising at a rate of three degrees every 70 years.

STATEHOOD FOR ALASKA, HAWAII RESTS IN HANDS OF 80 IN HOUSE

By HARRISON HUMPHRIES
WASHINGTON (AP)—The fate of a bill to confer statehood on Alaska and Hawaii apparently rested today with a bloc of 80 or so reportedly undecided House members.

With a final House vote expected by nightfall, statehood supporters said a poll showed 176 votes for the statehood bill and 172 against—with about 80-odd representatives still on the fence.

Before the showdown, both backers and opponents of statehood for the two territories hoped to win. The prospect was for a close final count.

Two Changes Loom

Statehood supporters planned one major parliamentary move in an effort to enlist more votes and to make the bill acceptable to President Eisenhower. They readied a motion to send the bill back

to the House Insular Affairs Committee with instructions to return it immediately with these two changes:

1. A new provision to give the President authority to designate as a military reservation a vast sparsely populated area of northern and western Alaska.
2. A section to limit Hawaii to one representative, instead of two, in the House pending a reapportionment of House seats based on the 1960 census.

Urged For Hawaii
Eisenhower has urged statehood for Hawaii, but has made no such recommendation on behalf of Alaska.

However, he wrote Sen. Jackson (D-Wash.) earlier this year saying he would give earnest consideration to legislation which embodied a proposal by Secretary of the Interior McKay to set aside 283,000 square miles—nearly half of area of exclusive federal jurisdiction in the Aleutian Islands. Jackson is chairman of a Senate Territories subcommittee which has held hearings on statehood.

The House took up the Alaska-Hawaii statehood bill yesterday and by a 322-66 vote agreed to a procedure barring any amendments. Both sides claimed this procedural vote as a victory.

SAYS BIG FIRM SEEKS SITE IN PENNSYLVANIA

HARRISBURG (AP)—Rep. Edwin W. Tompkins (R-Cameron) told the House yesterday that a giant aeronautical firm is seeking to establish a research, experimental and testing plant in north-central Pennsylvania on its own initiative.

"Curtiss-Wright is coming into this state and they selected the site they did for certain specific reasons," he said. He did not elaborate.

"The state didn't seek nor ask this firm to come into Pennsylvania—contrary to the deplorable attempt being made by the present administration to make it appear that way."

Tompkins commented on the proposed plant on 53,000 acres of state land in Cameron, Clearfield and Elk counties by reading the House a letter he wrote to Johnny Mock, Pittsburgh (Press) newspaper columnist.

"It would certainly be a tragic day for this great commonwealth and especially this area if this company should be forced to abandon its plans because certain individuals attempt to embroil the project in politics or because of any furor generated by the sportsmen," Tompkins wrote.

Sunday Mock pictured the project, backed by the Leader administration, as a land grab from the sportsmen's point of view.

"You also seem to forget that what this company will do at the project may one day be the means of saving Pittsburgh and Philadelphia in case of enemy attack," Tompkins said. "Cameron County is all for the project."

Friday representatives of organized sportsmen of Pennsylvania met with the governor to discuss the project. They received a promise of aid in relocating some 200 camps located in the tract and were told the research station will continue work on atomic power aircraft.

Action Is Delayed

However, final action on enabling legislation to permit the lease of 44,700 acres at \$630,000 a year and sale of 8,500 acres at \$722.50 an acre is being delayed in the Senate.

Sen. Albert R. Pechan (R-Armstrong) said yesterday the delay was brought about because the company is seeking complete title including gas and oil rights. The original announcement of an agreement by Gov. George M. Leader said the state would retain mineral rights.

Pechan said the U. S. attorney general is being queried on federal contract requirements.

Plans for a new recreational area adjoining the proposed Curtiss-Wright tract are being formulated by the State Fish Commission and the Forests and Waters Department. It would provide swimming, camping, fishing, boating and picnicking facilities.

HERE WE GO AGAIN

WARREN CHEVROLET IS GETTING

READY TO BEGIN THEIR MID-MONTH

USED CAR CLEARANCE SALE

Last month this sale was so effective that we cleared our lot in just 3 days. More than 70 people from this vicinity took advantage of RIDICULOUSLY low prices. FANTASTIC over-allowances and bargains beyond belief.

The LATE-COMERS were disappointed—DON'T you be too late this week.

WARNING: This sale is strictly for our retail customers; nothing will be sold to dealers.

SALE WILL BEGIN PROMPTLY 4 P.M. THURSDAY, MAY 12

and Will Continue Through May 13, 14 and 15

Don't buy any used car anywhere until you see this once in a LIFETIME USED CAR CLEARANCE SALE.

HERE IS WHAT YOU CAN EXPECT TO SEE:

Every car fairly and accurately represented. Every car stock numbered for your convenience.
